## EXPERIENCE

---

### Diggaj CoderPvt Ltd | Remote

#### Front End Developer | 06/2023 - Present

- Developed and maintained responsive, user-friendly web applications using **HTML, CSS, JavaScript, and modern frameworks** like React.js.
- Collaborated with cross-functional teams, including designers and backend developers, to deliver high-quality, scalable, and performant web solutions.
- Implemented UI/UX designs with a focus on accessibility, usability, and adherence to design guidelines.
- Debugged and resolved frontend issues, improving application performance and user satisfaction.

## PROJECTS

---

### Bike-Repair Management System

- Developed a web-based Bike Repair Management System to streamline repair tracking and customer management.
- Utilized **HTML, CSS, JavaScript** for front-end development and **PHP** for back-end functionality.
- Integrated **MySQL** for database management to store repair orders, customer details, and service history.
- Designed an intuitive user interface for mechanics and customers to track repair status and updates.
- Implemented features like user authentication, repair request submission, and admin dashboard for managing orders.
- Ensured responsive design for seamless usability across devices.
- Demonstrated problem-solving skills by addressing real-world challenges in bike repair workflows.
- For more details visit Github Repository : [Bike-Repair](#)

### HR Management Portal

- Designed and developed a comprehensive **HR Management Portal** to streamline employee and HR operations.
- Built using **HTML, CSS, JavaScript** for the front end and **PHP** for server-side logic, with **MySQL** for database management.
- Implemented features such as employee onboarding, leave management, attendance tracking, and payroll processing.
- Created an admin dashboard for HR personnel to manage employee records, generate reports, and oversee organizational tasks.
- Ensured secure user authentication and role-based access control for employees and administrators.
- Focused on responsive design to ensure accessibility across devices.
- Demonstrated strong problem-solving and organizational skills by addressing HR workflow challenges.

### Diggaj Coder Portfolio Website

- Designed and developed a personal portfolio website to showcase coding projects, skills, and achievements.
- Utilized **HTML, CSS, and JavaScript** to create a responsive and visually appealing user interface.
- Included sections for project showcases, skill descriptions, and contact information to highlight expertise and facilitate networking.
- Ensured cross-device compatibility and optimized performance for a seamless user experience.
- Demonstrated creativity and technical proficiency in web development through clean design and functional features.
- *For more details visit GitHub Repository:* [Diggaj-Coder](#)

### WhatsApp Automation Tool

- I The "Whatsapp-Tool" project is a web application developed using Vue 3 and Vite, designed to enhance the user experience on WhatsApp by providing additional functionalities.
- I The application offers tools such as direct messaging without saving contacts, status downloading, and chat analysis.
- I Implemented features for bulk messaging, contact extraction, and group administration, enhancing user productivity.
- I Demonstrated ability to deliver efficient, user-centric solutions for real-world applications.
- *For more details visit GitHub Repository:* [Whatsapp-Tool](#)

## TECHNICAL SKILLS

---

- Languages: **HTML5, CSS3, JavaScript (ES6+)**
- Frameworks/Libraries: **React.js, Vue.js , Nuxt**
- Styling: **CSS ,Tailwind CSS, Bootstrap, Vuetify, Material-UI**
- Version Control: **Git, GitHub,**
- Build Tools: **Webpack, Vite, npm,**
- APIs: **RESTful APIs,**
- Tools: **Chrome DevTools, VS Code, Figma**
- Soft Skills: **Problem-solving, teamwork, communication, time management**

## EDUCATION

---

**Atharva College of Engineering | Bachlor Of Computer Application | August 2012 | Mumbai**

Graduated with **First Class** honors, achieving **69.80%** overall.

## CERTIFICATES

---

- **Full Stack Enginnering Course** from **Codecademy (UK)** [Credential](#)
- **InterPe Certificate as Web Develpement** (Feb 2024 - Mar 2023)
